John Morris Director email woodlands@chilternsonb.org

Chiltern Woodlands Project is a registered charity no 1002512

ANCIENT WOODLAND SURVEYS

The Chiltern Woodlands Project is working in partnership with consultants Lockhart Garratt and the Woodland Trust to offer **free surveys** and report on the restoration of Plantations on Ancient Woodland Sites (PAWS).

If you would like a **free survey** please contact John Morris email woodlands@chilternsonb.org or phone 01844 355503 for more information

The report identifies ancient woodland features, including flora and archaeology, and management priorities, with maps and photos.

EVENTS

ANCIENT WOODLAND FLORA – AN INTRODUCTION

Friday 28th April 2017 From 10am to 4pm approx.

Much of our woodland flora is adapted to grow in long established woodland conditions and they are often not good at spreading to new areas. Many woodland specialist plants flower in the spring before broadleaved trees come into leaf. Some other species will be found later in the year.

This day will include a talk and a visit to Bottom Wood, Radnage (near Stokenchurch), Bucks led by John Morris

Costs £30 per person (£50 for businesses) payment by cheque or bacs
